

KEY CLUB®

Illinois – Eastern Iowa District of Key Club International

Website Building? I know it sounds like a scary concept but it really isn't! Using the internet to connect with your club members is one of the fastest and easiest ways. This also gives you a chance to show your clubs hard work and dedication to the world.

Building Your Website

Step #1 Pick a website host!

Listed below are some easy-to-follow Website builders!

www.webs.com

www.weebly.com

www.geocities.yahoo.com

District Website www.iikeyclub.org

Circle K District Website www.iicirclek.org

Step #2 Web Pages

Don't know what pages to have? Here are some examples of "standard" pages to have!

Home – tell a little about key club, history etc. (for help look at www.keyclub.org)

Officer Roster – Your club officers and contact information. (Make sure to have permission to post any contact info.)

Calendar, past project information – show your new club members what you have done in the past and what's in store for the future!

District Information – Show who your Lt. Governor is, if your division has a website and who serves on

Using Other websites and services

You can use more than just a website to help connect your club! Here are some websites and ideas you could use them for!

Twitter

Make an account and start updating! With this service you can make quick updates about club events that can be sent directly to your club member's cell phones!

Facebook/MySpace

You can make a group or even an account for your key club, where you could post the link to your website! These websites are visited sometimes everyday by some of your club members anyway!

Skype/AIM

Using this website you can have online meetings with your club officers, committee members etc.

AIM = AOL instant Messenger*

Thank you!

Thank you for taking an interest in technology! A website is a great base for you to build a whole network of different ways to connect with your members. You can also win an **award** for having a website at **district convention**, so make sure to look for it in the 2010 awards packet! If you run into any trouble, or need some advice I am just a couple clicks away at techchair@iistrict.org
